

SkillSync — Programs Knowledge Base (for the Course Counselor)

SkillSync — programs, prices & claims policy (source of truth for every prompt)

- > Every ad script, page, email, WhatsApp message, and call script pulls its facts from here.
- > If a fact is missing, the agent asks — it never invents. Updated 2026-08-25 (founder-confirmed;
- > brand renamed 2026-08-25 — see knowledge/decisions.md).

What this is

SkillSync — an AI education company (infra-sync.online is the current project domain; "InfraSync" was the working codename). Live, cohort-based programs teaching people to work with AI — one track for non-tech professionals, one for engineers. **Certificates of completion** are issued by SkillSync automatically when a student completes their program (unique code `SSC-YYYY-NNNN` + public verify page; completion only — no accreditation claims).

Programs (founder-confirmed 2026-08-25)

Program	Price	Who it's for	Format
---	---	---	---
2-Day AI Workshop	\$20 international · ₹1,999 India (entry offer)	Anyone curious; the funnel's front door	Live online · Saturday + Sunday, 2:00–8:00 PM IST
AI Generalist Accelerator	\$1,200 international · ₹95,000 India	Non-tech backgrounds	Live cohort (see schedule)
AI Engineer Accelerator	\$1,200 international · ₹95,000 India	Techies — Python required (basic-to-intermediate)	Live cohort (see schedule)

Schedule & logistics (confirmed)

- **Workshop:** every weekend, **Sat + Sun, 2–8 PM IST** (6 hrs/day). Next dates:
Aug 29–30 · Sep 5–6 · Sep 12–13, 2026.
- **Accelerators:** next cohort starts **Sep 15, 2026** · live sessions Tue & Thu 8–10 PM IST + weekend office hours.
- **EMI:** **no-cost EMI** — 3, 6, or 10 months via Razorpay (subject to bank approval).
- **Refunds:** **Workshop:** non-refundable (stated clearly at checkout). **Accelerator:** full refund if you cancel within 4 weeks (1 month) of cohort start (founder-confirmed 2026-08-25). Program duration itself: cohort-based, number announced later.
- **AI reminder calls:** registered students receive automated reminder calls from SkillSync's AI counselor before their sessions (plus email/WhatsApp reminders). Registration forms include a consent line: "I agree to receive session reminders by call, email, and WhatsApp."

Curriculum (founder-approved draft)

- AI Generalist:** AI fundamentals & prompting · vibe coding with AI builders · automations without code · AI for content, marketing & data · build-your-own capstone.
- AI Engineer:** AI-assisted dev workflows · agents & tool use · RAG fundamentals · testing &

shipping with AI · engineering performance + time-management systems · capstone.

Still open (small)

- [x] Accelerator refund: 4-week money-back window ✓ · [] accelerator duration in weeks (for the site, when decided)
- [] Instructor real names (site says "SkillSync mentor team" until then)
- [] Certificate signatory real name (template says "Program Director, SkillSync" until then)
- [] Seats per cohort — internal cap only; never advertise scarcity
- [] Certificate template sign-off (logo, signatory) — needed before first auto-send
- [x] Brand: **SkillSync** (site + certificates) — renamed 2026-08-25, see decisions.md

Funnel

Ads (Flow-made, 30s) · content · SEO → **2-Day Workshop** — \$20 intl / ₹1,999 India** (paid front-end) → track-fit quiz (Generalist vs Engineer) → accelerator offer \$1,200 / ₹95,000 (no-cost EMI 3/6/10) → checkout (**Razorpay hosted payment pages** — test links live, live-mode after KYC) → onboarding → cohort → **completion** → auto-certificate (SkillSync) + verify page** → alumni referrals. Support: site **chat agent** (answers only from this file) + **voice counselor** (OmniDimension, dedicated account — inbound queries + consented reminder calls) + WhatsApp windows. Reminders via email (Brevo) + WhatsApp utility + AI reminder calls.

Claims policy (edtech is watched — ASCI + CCPA India, FTC US; we price in USD)

- **No fake students, no fake testimonials, no AI-generated "graduates".** AI people in ads are hosts/explainers only. Real testimonials only from real students, with consent.
- **No outcome promises without data**: "get a job", "3x salary" don't ship unless we can substantiate them. Curriculum facts always beat outcome claims.
- No fake scarcity/countdowns; discounts only against a real prior price.
- Python prerequisite for the Engineer track stated clearly wherever it's sold.
- "Non-refundable" for the workshop must be visible BEFORE payment, not only in fine print.
- Reminder calls only to registrants who consented at signup; DND respected; human triggers any bulk dispatch.
- Mandatory pages before payments go live: terms, privacy, refund policy, contact/support.

Voice & style (fill after Pomelli Business DNA run on the new site)

- Tone: confident, practical, zero hype-jargon:
- Words we use / never use:
- Visual direction for ads/site: premium tech-education (see prompts/design-sprint.md)
